FOREWORD

Over the years, the banking operations have been automated to a large extent and wide range of banking software's have been developed for accounting of transactions and core banking operations.

Bank software is becoming more sophisticated all the time. As new accounting methods develop and more people bank online, private banking software is being developed to streamline the processes.

I am feeling elated to share my happiness amongst the members in bringing out an informative e-book on **Audit in CBS Environment**.

This e-book provides a detailed knowledge base for professionals who would like to understand how Audit in Core Banking Software/Solution (CBS) has evolved over the years. It also covers the basic concepts of Core Banking Software/Solution for better understanding of the environment and an overview of the various Core Banking Software/Solution available in the market.

This e-book includes detailed write ups on the important menu commands of Core Banking Software/Solution, Illustrative checklists on different audit activities through Core Banking Software/Solution and Illustrative list of Special purpose/Exception Reports for better understanding of Core Banking Software/Solution and to let our professionals take advantage of the same by using it effectively.

This e-book, one in a series of member centric publications planned by SIRC, aims to serve as a Handbook and Guide for the professionals who intend to understand the basics of Core Banking Software/Solution and how to perform an audit effectively within the Core Banking Software/Solution environment.

On behalf of SIRC, I wish to place our sincere gratitude and appreciation to CA. Kuntal P Shah, for sharing his rich experience and expertise on the Audit in CBS Environment amongst our members through this e-book. I also take the privilege of thanking CA. Gangesh K Shrinivas for reviewing the basic draft of e-book and adding value to the substance of the e-book.

Comments and suggestions on the e-book are welcome at sirc@icai.in

CA.K.JALAPATHI
Chairman, SIRC of ICAI

Banking Industry & Banking Software:

Current Scenario

The face of Banking Industry is changing continuously. What Banking is today is quite different from what it was in the years gone by. Some of the present trends in banking industry include

- Focus on Customer Relationship (Service Oriented Architecture[SOA])
- Introduction of Value Added Services
- Connectivity of branches
- Multiplicity of Delivery Channels (ATM, Cash Deposit Machines, Cheque Deposit Machine, Point of Sale Units, Credit Card, Mobile Banking, Internet Banking)
- Focus on MIS & Risk Management
- Focus on Reduction of Transaction Cost

Future Scenario

One can visualize future scenario in the industry on current trends. Going by the current happenings one can expect the future of Banking Industry.

- Increase in the expectations of Customers
- Increase in Healthy Competition due to issue of New Banking Licenses
- A greater variety of Products and Delivery Channels in the market
- Centralised Customer Management (Service Centric Approach)
- Information Technology to act as an integrator and enabler between demands on the industry and services rendered

Challenges

The biggest challenge before the Banking Industry today is posed by its customers' expectations. The customer today is more informed and aware than before. Customers demand more and more services and delivery channels.

Customers' Expectations

- Anywhere, Anytime banking
- Diverse products and facilities

There are challenges posed by Market Forces due to stiff competition wherein the differentiator or selection of bank by the customers is based on quality of Services. However, the Service up-gradation comes with a cost for the Bank. Hence, a Tradeoff between cost of Transaction and Quality Service to Customer is the key. Moreover, due to diversified products and services, upto date information for Customer and Banker is very important.

On the other front the Regulatory requirements are rapidly increasing. Apart from handling Transactions, Customer and competition it is very important to pay equal attention to adherence to regulatory guidelines.

A composite system / software which handles Transactions, Customer Relations, Regulatory compliances, MIS / Reports request is the need of an Hour. Core Banking Systems provide the solution for the same. There are various Core Banking Softwares available in the market. More prominent and used in India are,

Software Package	Provider
Finacle	Infosys
FLEXCUBE	Oracle Financial Services Software, (By iflex)
TCS BaNCS	Tata Consultancy Services (TCS)

Audit of Banks & Banking Softwares

Ever since the human being started documenting transactions, audit methodology and techniques have evolved over the period of time keeping pace with the style of business. With the growth in business volume and technological advances there has been paradigm shift in various aspects of business. Conducting audit of financial transactions can not be an exception to the same. Traditional audit techniques and methodology were outcome of the volume and complexities of the business of its time. A classic example of the same is audit techniques applied for conducting audit of a bank operating under Core Banking System (CBS).

As we have witnessed, during the last decade there has been large scale growth in banking services, covering more and more geographical area and large number of population. This has necessitated applying modern technology, particularly in the field of data capturing, recording and processing. CBS is outcome of the same.

For obvious reasons audit methodology can not remain static, it has also to change. Therefore, with the spread of CBS in large number of cases, changing audit methodology also became inevitable. If the auditee's dependence on technology hinges heavily, there is no reason why auditor should not apply the same technology.

Core Banking Solution (CBS)

What is CBS?

The core banking system is the set of basic software components that manage the services provided by a bank to its customers through its branches (branch network). The bank's customers can make their transactions from any branch, ATM, Service Outlets, Internet, Phone at their disposal.

The CBS is based on Service Oriented Architecture (SOA). It helps banks to reduce risk that can result from manual data entry and out-of date information. It also helps banks to improve Service Delivery quality and time to its customer.

The software is accessed from different branches of bank via communication lines like telephones, satellite, internet etc.

Core Banking System [CBS] works on a concept of Centralized Database and Processing. Transactions take place at various geographical locations which get recorded and processed at a Centralized Server. Updation of Database is on Real Time Basis. Due to the Centralization of

Transaction Processing, issue of Out of Date Information is eliminated. All the users connected to CBS will be able to get upto date information. CBS also enhances quality of Reporting and strengthens Access Control.

Centralized Banking Solution / Core Banking Solution

Under CBS data is stored in centralized servers at Data Centre. This effectively means that all operations at the connected branches, back offices are carried out through servers at Data Centre including transactions through other delivery channels like ATMs, Internet Banking, Phone Banking.

Under CBS, the branches, back offices are defined as SOL (i.e. Service Outlets) where each SOL functions as a service window. The CBS is capable of processing any transaction from any branch location connected to CBS. It can be equated with single window operations at airline counters or railway reservation counters wherein all the services can be obtained at one place. Hence, under CBS customer is now a customer of the bank and not merely a customer of a branch of the Bank. This has facilitated Any-where, Anytime Banking convenience for the customer.

From Bank's perspective, control over the application and processes has been entrusted at Data Center Level. In addition to it CBS also makes available effective MIS on real-time basis. It enables generation of all periodical returns centrally.

As mentioned above there are various CBS developed by various software companies are available in the market however, out of the all, highly acclaimed and widely used Core Banking Softwares are a) FINACLE by Infosys, b) BaNCS by TCS and c) FlexCube by Oracle

This writeup is segregated into following parts.

1. Part - A Overview of Various CBS and Basic Concepts
2. Part - B List of Important Menu Commands of CBS
3. Part - C Illustrative Checklists on different Audit activities through CBS
4. Part - D Illustrative list of Special purpose / Exception Reports

Part - A

Overview of Various CBS and Basic Concepts

Introduction to FINACLE

A Financial Package, for Banking Solution developed by Infosys on a platform of Oracle, is thus named as FINACLE. Presently, many Indian Public Sector Banks, Private Sector Banks and Foreign Banks operating in India are using this software as banking solution due to high flexibility and scalability. Finacle is an integrated, on-line, enterprise banking system designed to provide the "e-platform".

Prior to 1995 it was known as BANC 2000, a Total Branch Automation package with a distributed network. After 1995 Infosys developed the same as FINACLE, a Core Banking Solution.

Functionalities

- Finacle facilitates anywhere banking
- It is menu driven software with easy navigation.
- It is functionality rich and addresses the retail and corporate banking requirements.
- Customization and parameterization are two special features of Finacle.
- Finacle provides multi-lingual support
- Finacle provides multi-level security i.e. operation, database and application level security
- It supports workflow based Transaction Processing.
- It has High level of security control and audit capabilities
- It has a common transaction interface for all type of transactions.
- It provides a browser based GUI interface to Finacle
- SQL & PL SQL is used for generation of MIS, Reports, Queries at Centralized Level.
- Designed for optimum Usage Of Network Bandwidth
- There are two Functional Modules -
 - a. *Retail and Corporate Module* - Encompassing Saving Accounts, Current Accounts, Term Deposits, Cash Credit Accounts, Overdraft Accounts, Term Loans, Demand Loans.
 - b. *Trade Finance Module* - Encompassing Inland & Foreign Bills, Forward Contracts, Inland & Foreign Documentary Credits, Inland & Foreign Bank Guarantees, Inland & Foreign Remittances and Preshipment Credits.

Finacle (Ver. 7) Overview

Finacle User Menu								
Menu Block			Favorites !					
Main Menu -> Sub Menu -> Menu Description [Menu Code]			User Defined Favorites					
MESSAGE AREA								(A)
Menu Option	(B)	Btn.1	Btn.2	Btn.3	Btn.4	Btn.5	Btn.6	Btn.7
Action Bar								

A = Progress Indicator

B = Field to Specify Menu Option

- *Menu Block*: The block houses all the menu and sub-menu options available in Finacle.
- *Menu Option Block*: Menu Code to be entered to gain access to the respective menu.

- *Action Bar*: User can execute the process of Finacle Operations by clicking on various options on this bar. The Hot-Keys are also assigned for all options, which appear on the bar.
- *Action Buttons*: Every action button has a specific purpose. E.g. On clicking WhoAml button, system will display user_id of the user who is currently logged in & other information viz. date, name of SOL in a message box.
- *Message Bar*: The message bar displays warnings, exceptions, errors or Lists under a specific field code.
- *Favorites*: Menu items which are required and used on Regular basis can be put in favorites by copying from Menu Block. As a one time process Specific Menu Item which is required to be copied to Favorites should be located in Menu Block and with the use of Drag and Drop the function can be stored under Favorites menu.
- *Progress Indicator*: It shows the progress of the action initiated through the use of Colours (i.e. **Green** indicates that the System is “Ready” for processing, **Red** indicates that the “System is busy in Processing Activity and **Yellow** indicates that browser is performing internal processing like assembling / painting screen as per requirement. User should not operate the system)

General Key Map

Default Physical Keys in Finacle are as follows. However, default key map differs in individual bank.

Physical Key	What does it do?
F1	Field level help. Like in several word processors and spreadsheet packages, F1 displays context sensitive help messages and field level help messages.
F2	List. This key lists the codes that may be used in a particular field.
F3 / ESC	Quit/ Back. Quits and takes the user back to where he started when in action. It can be used when the input is incorrect and the user wants to abandon what he has been doing. It can also be used to go back to the previous menu.
F4	Accept. After the user has completed the input, this key can be used to accept the data.
F5	Background Menu
F6	Next Block
F8	Copy Record
F9	Display Signature
F10	Commit/ Save. This is very important key and this concludes the transactions. This is the commit and transactions get into the General Ledger (database) when this key is used.
F11	Next field
F12	Previous Block
TAB	Go to next valid field
ENTER	Go to the next field
DOWN Arrow ↓ (NextRec button)	Next Record (In a list or result of a query)
UP Arrow ↑ (PrecRec button)	Previous Record (In a list or result of a query)
CTRL+F1	Help maintenance
CTRL+F3	Show key map
CTRL+F4	Display error
CTRL+F8	Terminal lock
CTRL+F9	Memo pad look up
CTRL+F11	Context level help
CTRL+D	Page down on a list

Physical Key	What does it do?
CTRL+E	Explode. This key is particularly useful for the further inquiry.
CTRL+F	Clear field. This key combination can be used when the user wants to clear the field.
CTRL+T	Display LGI. The user ID, Terminal ID, SOL, BOD Date and language details are displayed.
CTRL+U	Page up on a list
CTRL+X	Put BOD date. This key combination populates the default BOD date in the field.
SHIFT+F4	Select the current item from the list. This key combination can be used to select a value from the list of valid values listed for a particular field.
SHIFT+F11	Transmit
SHIFT+TAB	Go to the previous field

At present there are two versions of Finacle in operations i.e. Version 7 and Version 10 ("Finacle 10X"). Few of the important changes in Finacle 10 are as follows.

- Entire new module "CRM" in place of CUMM command
- CRM Module under Finacle 10 contains various fields for capturing of information. Viz.
 - ✦ General Details,
 - ✦ Demographic,
 - General
 - Caste | Nationality | Marital Status | Mailing Preference | Tax Exemption Form Ref. | Tax Exemption Start and End date | TRC Validity
 - Qualification
 - Employment
 - Income & Exp. Details
 - ✦ Psychographic info.
 - Profile
 - General details
 - Segmentation
 - Preferential Discount
 - Relationship Details
 - Introducer | Guarantor | Reference | Ben. Owner
 - Asset
 - Assets purchased with Finance details
 - Credit Bureau Preferences
 - External Rating details
 - ✦ Trade Finance
 - ✦ BASEL Profiling
- Trade Finance and Foreign Exchange Menus have also undergone changes. For instance
 - ✦ Single Reg. Type code is prescribed instead of two codes as was applicable in Ver. 7.
 - ✦ Flag in Inward Remittance module for Advance against Exports cases
- There is completely New UI (User Interface) in Finacle 10.
- Menu codes have also undergone changes as compared to Version 7.

- Account Setup is now different for Operative Account and Term Deposits Accounts.
- Signature verification system separated from Main Application. New module “SVS”. Though linking is available besides account no. for seamless movement.
- Apart from enhancements and above points there are various Navigational Changes and Process Changes in Finacle 10X.

Introduction to TCS BaNCS

A Financial Package, for Banking Solution offered by Tata Consulting Services. The Core Banking solution TCS BaNCS is an integrated solution that automates all aspects of core banking operations across entities, languages and currencies. BaNCS is built on open architecture, component-based product suite to leverage service-oriented and event-driven architectures.

Functionalities

- Entire range of banking products including savings, checking, overdraft and deposit accounts
- Entire range of lending products
- Complement of transactional services including remittance, foreign exchange, cards and trade finance
- Accessibility through multiple channels, including mobile banking and web
- Full integration of front-, middle-, and back-office processes
- Accurate, timely and actionable information about customer relations
- Single view between bank and customer
- “Anytime anywhere” banking

Introduction to Oracle FlexCube

FlexCube provides a comprehensive, integrated, interoperable, and modular solution that enables banks to manage evolving customer expectations.

Functionalities

- 24/7 processing of large transaction volumes, with high availability
- Multiple delivery channel support
- Security management covering application and role-based access
- Service-oriented architecture supports agile business process management
- Componentized architecture helps build scalable and reusable solutions

Quick access screens through Hot Keys in Flexcube

Hot Keys	Screen Name	Description
Alt + B	Balance Inquiry	This screen displays the account details of the savings and checking account balances such as the available balance, nucleated balance, current book balance, passbook balance, net balance, etc.
Alt + C	Customer Name And Address Inquiry	This screen displays the details such as the name, address, city, country, SSN/TIN number, etc of the selected customer
Alt + A	Account Details	This screen displays the account details of the customer such as account number, account branch, account currency, customer name, etc.

Hot Keys	Screen Name	Description
Alt + S	Amount based Account Image Display	This screen displays the images on the basis of the details maintained in the Amount Based Operating Instruction Maintenance (Fast Path: 7116) option
Alt + P		This will enable the user to print the receipt of the transaction.
F8		This will enable the user to return to the same screen.

General Concepts of CBS and of Finacle:

- **SOL ID & Set ID (Init. Br. ID)**

SOL ID: Under Core Banking System, each Branch, Back Office, Administrative / Controlling Office are assigned a code i.e. Service Outlet ID [SOL ID]. It helps in identifying the Branch / Office under which the Account is maintained. Hence, if a branch at Delhi is assigned a SOL ID of "0089", the accounts opened under Delhi Branch will display "0089" as SOL ID in CBS.

As discussed above under CBS any branch can initiate transaction for any of the account maintained with the bank. Hence, a distinction is required between the branch which maintains the account and the branch who initiate the transaction.

Set ID (Init. Br. ID): Set ID or Initiating Branch ID is a SOL ID of the Branch who initiated the transaction.

E.g.: Transaction of a Cash withdrawal by a customer of Mumbai Branch (SOL ID "0044") from Delhi Branch (SOL ID "0089"). In the instant case "0089" is Init. Br. ID and "0044" is Account SOL ID. In order to search transactions based on the branch who initiated transactions in Finacle, SET ID (Init. Br. ID) parameter is required to be used under Menu Code "FTI".

- **Tran ID, Journal No. & Date**

Each transaction in Finacle will be assigned a unique Transaction ID. The Transaction ID remains unique only for the day, since, on the next day the Transaction IDs are reset.

Combination of Transaction ID and transaction date make it unique across the system. In Finacle, once the transaction is "Entered", a Tran ID is generated. To locate any transaction from the database the user need to use Tran ID and Date at TI/TM Menu command.

Under BaNCS the transaction number is known as Journal Number.

- **Transaction Type & Subtype**

Transactions in Finacle are entered with the Transaction Type and Transaction Subtype. It easier to trace set of transactions with Transaction Type & Sub Type.

Codes for Transaction Type and Sub Types are prescribed differently by each bank.

E.g.: Transaction Type codes for Cash and Transfer may be of following types.

- ✦ Tran Type: Cash: "C", Transfer: "T"
- ✦ Sub Tran Type: CR - Cash Receipt, CP: Cash Payment

The auditor must acquaint himself with the Transaction Types used by each bank. It helps auditors to design query (search parameters) for inquiry of financial transactions.

- **Customer Master Level Configurations**

Under CBS, the customer is identified by a number generally called CUST ID / CIF No. Following are the advantages of separate configuration for Customer and Accounts of Customer.

- ✦ Identification of unique customers.
- ✦ Data redundancy can be reduced by eliminating the process of updating repetitive details about customer at each time of opening of Account.
- ✦ It is easier to comply with Customer centric Regulations. E.g. TDS provisions under Income Tax Act (where payment to customer is important than payment for an account), IRAC Guidelines (where classification of account is Borrower-wise and not Account-wise)
- ✦ Multiple accounts of the customer can be mapped to a customer for better identification.

Under the Customer Master Level configuration basic details about the customer are updated. Details include Name, Date of Birth, PA Number etc.

Once the CUST ID / CIF is opened, various accounts can be opened under the said CUST ID / CIF. Relationship between CUST ID/CIF No. and Account is that of Parent and Child wherein the Account Master inherits the information and parameter values from Customer Master.

In Finacle menu command **CUMM / CUMI** is used for inquiry on CUST ID / CIF No. Under BaNCS the customer master details can be reviewed through “Customer Master Details” module.

Important Points for Auditors:

1. Issues with multiple CUST-ID:

In terms of guidelines issued by RBI on UCIC, each customer in bank is required to be assigned a unique ID. However, it has been observed in many banks that multiple CUST IDs have been opened for a customer. It has also been observed that at the time of migration had migrated old customer information to one CUST ID and have opened new CUST IDs for opening of new accounts post migration.

Due to multiple CUST ID the very purpose of having configuration of CUST ID is defeated. The auditors should verify such discrepancies at the time of account opening verification. Moreover, the auditors should also seek help of bank’s IT Dept. for generation of report based on combination of information viz. Name, PAN, date of birth, employee code etc. to identify existing cases of multiple CUST ID in the system.

2. Difference in customer’s name at CUST ID and at Account Level:

At the time of opening of Account, Finacle automatically displays the name of Account Holder based on CUST ID details. However, Finacle also allows user to amend the name. Generally the said change is configured as an exception which requires sufficient powers / work class in the system to override.

The Auditor at the time of Account Opening verification should verify the details as per CUST ID and in Account. Difference in names at both the places increases unwarranted confusion. Moreover, auditor should seek help of bank’s IT Dept. for generation of report based on difference in name as per CUST ID and as per Accounts opened (if any).

- **Account Level Master Configurations**

Configurations / parameters for are setup at the time of Account Opening. Modification afterwards is also permitted.

Account Level master contains the parameters and details specifically with respect to account. For instance, Interest Rate, Interest payment periodicity, Freeze, Lien etc.

It is important to note here that under CBS majority of functions and transactions are master driven and hence, any minor error at Master Level (whether Customer Master or Account Master) can have magnanimous effect on transaction processing. E.g. if Interest Collection Flag is selected as "N" at Account Master Level, the system will not collect any interest. Hence, accuracy of master is a vital audit area.

- **Pointing Type Accounts / Self Reconciling Accounts**

Apart from maintaining Customer Accounts, the bank's general ledger also contains various Suspense / Sundry Accounts. Such accounts can be with Debit or Credit balance.

The said accounts are used for limited purpose and for parking of entries for limited time frame. Transactions wherein either Debit / Credit leg is not confirmed / identifiable at the time of Transactions are parked in such accounts. E.g. An amount of Rs. 1,000 is given to an employee in advance for purchase of Stationery item for branch. The said transaction will be kept under such Suspense / Sundry account till the date the employee submits the bill / returns the advance.

The transactions processed in such accounts are not routine hence it calls for continuous monitoring and earliest reversal. Moreover, numerous transactions in an office account make it difficult for reconciliation. In earlier times, the activity of reconciling the office account was manual.

However, under CBS such accounts are opened under Pointing Type Office Account / Self Reconciling Accounts Scheme Code which facilitates automatic reconciliation and real-time information on outstanding / non-reversed transactions.

Transactions in such type of accounts are in two parts. i) Originating Transaction ii) Reversal Transaction. For each reversal entry, the system will prompt the user to point it to an originating transaction. There can be multiple reversals against single originating transaction. Such type of Account will also ensure that in case of a Debit Type Office Account, Credit entry as Originating entry will not be permitted.

On the users side, at the time of reversal of Transaction the system will ask the user to "Point" the Originating Transaction against which the transaction is being reversed. On selection, the system will reduce the balance under the said Originating Transaction. Under this type of Pointing Type Account, at any given point of time aggregate of outstanding transaction-wise balance will be equal to the Office Account Ledger Balance.

Under Finacle, verification of outstanding / non-reversed entries can be verified from menu command **IOT (Inquire on Transaction)**. Moreover, a report on outstanding office account transaction can be generated through Menu **MSGOIRP**. Various customized reports for the said purpose are also available under each banks "Report" menu in Finacle.

Under BaNCS, the outstanding entries are available through offline reports viz. "Audit BGL accounts age wise break up" and "GL-Outstanding-Accnts" report.

- **Interest Table Maintenance**

Interest collection as well as payment in CBS can be through Interest Tables or can be by way of absolute rate. In case a loan account wherein Interest Rate is based on a reference rate (say Base

Rate), the Interest Rate field is updated with the Reference Rate Table to ensure automatic updation of Interest on subsequent change.

In case of Interest Table master, the primary rate is sourced from a Master Table. For instance, in case of Loan sanctioned as Base Rate + 3 % whereas Base Rate at the time of Sanction was 10%, the Interest Rate field will be updated either with BR+3 Table code or with BR Table with 3% updated in Account Preferential Debit Interest with +3%. Method of updation of interest may differ from bank to bank.

In case of few specialized products (e.g. subsidy linked accounts) limit level interest rate is required to be applied. In such case the parameters are setup at Interest Table Master Level and the said table code is updated under Interest Table field at Account Master Level.

In case of a fixed rate loan, the interest rate is updated as absolute figure in Interest Rate field instead of Table. However, few banks follow the practice of updating "ZERO Interest Rate Table" with necessary interest rate at Account Preferential Debit Interest.

- **Interest Flags**

Values at Interest Flags determine the payment & collection of Interest. Applicable flags (i.e. Interest payment, Interest collection) are required to be updated at Account Master Level. Hence, if the Interest Collection Flag is updated as "N", there will not be charging of interest by system, although proper Interest Table Master is selected.

- **Withholding Tax Flags**

Interest payment to the customer is aggregated at Customer Master Level (i.e. for all the accounts opened under a CUST ID / CIF No.). The threshold limit for TDS is computed based on the amount aggregated at CUST ID Level. Once the payment of Interest exceeds minimum threshold level prescribed under Income Tax provisions, the system initiates deduction of taxes from Interest. However, for cases wherein customer has submitted Form 15H/ 15G / tax exemption certificate, necessary flags are required to be updated to prevent deduction of taxes upto the enhanced limit (as applicable).

Withholding Tax flags are available at both CUST ID and Account Master Level. With the recent change in the Income Tax guidelines w.r.t. online submission of details of Form 15G/15H, the exemption is required to be flagged at CUST ID level for the amount of Interest Income declared by the customer.

In Finacle, withholding (TDS) flags are driven by Tax Slab. For each type of customer different tax slabs have been defined at Master Level e.g. TDS for individuals, TDS for corporate, TDS for exempt entities. It is important for auditor to verify correctness of Tax Slab vis a vis constitution of customer.

- **Freeze Flags (Debit, Credit and Total)**

In case of court order, dispute between the joint account holders, recovery notice from revenue authority the transactions in accounts are required to be suspended. Depending upon the requirement the transactions are suspended (viz. Debit, Credit or all) through Freeze Flags.

The freeze can be applied at CUST ID Level (i.e. all the accounts of the customer) or specific account of the customer. The source documents are required to be verified for marking of freeze

and unfreeze event. The inquiry of accounts with Freeze Flag can be made in Finacle through ACS Menu Command with Freeze Flag as "T"=Total Freeze, "D"=Debit Freeze, "C"=Credit Freeze.

- **Schemes & Scheme Codes**

Different types of account products are offered to customer with different characteristics. For instance, various types of Savings Accounts are offered. The aggregation of account balance for such cases will take place at Sub GL & GL Level. However, for account operations and account master setup different schemes are setup in CBS. Scheme Code acts as a placeholder. Inquiry for different types of accounts can be made in Finacle through ACS Menu Command with "Scheme Code".

- **Exception Types**

The transaction errors are handled in CBS through following modes.

- *Warning* - Warns user for possible errors based on prefixed criteria
- *Exception* - Allows user (with sufficient power) to override. However, the transaction will be recorded in Exception Report for the day
- *Error* - Does not allow user to proceed further, unless the correct values are filled in.

- **Maker & Checker Matrix for valid transaction**

Under CBS the transactions are processed by atleast two officials of the bank under Maker and Checker mode. The same is tracked through the transaction events (viz. entry, posting and verification). Posting is the event which updates the GL Balance. Posting activity depends on the rights assigned to each user ID.

- **Inventory Locations**

The inventory concept under CBS refers to handling of security stationeries viz. Non-personalized cheque books, Demand Drafts, Term Deposit Receipts. Each bank, as per the requirement, creates different inventory location and inventory sub location codes in CBS.

Predominantly, locations are created for Joint Custody (Dual Custody), Employee Custody, External Locations. Barring, external location, balancing of security stationery is available for all the locations.

In Finacle the report on outstanding inventory items can be generated through Menu command ISRA. Whereas under BaNCS the same set of reports can be generated through VPIS (Valuable Paper Inventory System) module.

- **Zones in Clearing Modules**

For easy identification of Type of cheque and proper reconciliation various zones are opened on daily basis (as per clearing cycle) in CBS.

Various zones are opened for Non CTS Cheques, Interbank Cheque, KYC Cheques, MICR Cheques, Non-MICR Cheques, Warrants, CMSCheques etc.

Opening of Zone is the primary event before lodging any Inward Clearing instrument or Outward Clearing Instrument.

- **Limit and Limit Node**

Under Finacle the Limit Management is done through Limit Node Maintenance. Wherein, the limits are specified at each node level with capping.

- Credit Limits can be set at Account Level as well as at Node Level for deriving the Drawing Power for a customer. Setting up of Limit at Node level has following advantages.
 - i. Managing two or more accounts with drawing power deriving from the same security.
 - ii. Interchangeability of limits among different accounts.
 - iii. Monitoring the overall exposure to a single client / group of clients.
 - iv. Exposure to a select commodity / security. *Limit Node Maintenance* helps to build these requirements in the limit management

- Limit Node:
 - i. Limit nodes are used to group accounts under one node to enable easy monitoring and organization.
 - ii. A limit node can be linked to a security for deriving drawing power.
 - iii. Distribution of overall group (group may be a group of clients or a group of accounts) limits to individual members (members may be accounts or clients) is possible through creation of Parent Node and Child Nodes.
 - iv. Every child node can further be distributed to group of accounts or clients.
 - v. This is diagrammatically explained through below example.

Facility Type	Particulars	Limit (Rs. Lacs)	Remarks
Funded	Term Loan	225	Funded Limit Cap is 500 Lacs <i>Upper Limits fixed in each type of Facility</i>
	WCDL	75	
	CC	200	
	BP / FBP / BD	50	
Total Funded Facilities		500	
Non-Funded	LC	300	Non Funded capping is at Rs. 500 Lacs
	BG	300	
Total Non-Funded Facilities		500	
Total Company Exposure		1000	Total Exposure to Company should not exceed 1,000 Lacs

- **Temporary Overdraft (TOD) Setup:**

Granting of TOD to a customer is a credit decision from Bank's perspective. Auditor has to review the source documents and delegated powers to ascertain whether the sanction was inline with the guidelines prescribed by the bank.

Setup of TOD is done in Finacle as follows. TOD is granted to an account under various circumstances. For instance,

Type	Event	Mode
TODIC	Interest Calculation	Single
TODDL	Drop in Limit	Single
TODMN / TODUG	Manual / User Generated	Single / Running / Adhoc

Explanation of various TOD modes is as follows.

Mode	Narrative
Single (S)	It refers to TOD for specific Purpose / transaction. It can be used only for the specific transaction during which the same was granted.

Mode	Narrative
Running (R)	It refers to setting up of a parallel limit at account level for a defined period over and above credit limits (if any).
Adhoc (A)	Adhoc allows customer with OD / CC Accounts to operate within TOD Limits for defined period.

From above narrative it appears that running and adhoc TODs serve the same purpose. However, from CBS perspective, both the events are different. In case of single and running TOD, CBS computes the number of TOD sanctioned in the account. In case the cumulative number exceeds the prescribed limit for an account, an exception gets triggered for all subsequent transactions. Whereas in case of Adhoc TOD the said TOD is not counted under number of TODs thereby circumventing the exception controls embedded in the system.

It is important for auditors to verify cases wherein Adhoc Limits have not been delinked on expiry in system.

Register Type & Subtype (Trade Transactions)

The concept of Register Type and Sub Type is same as Transaction Type and sub types as discussed above. The types are used to aggregate transactions of same nature in system. It helps in identifying and tracking of transaction in a better manner. In Finacle, Register Type and Sub Types have been used in Inland Trade Transaction and Foreign Trade Transactions modules.

List of few Register Types and Subtypes for an Import Transactions is as follows.

Reg. Type	Sub Type
Import Bill on Collection	Sight
Import Bill on Collection	Usance
Import Bill under LC	Sight
Import Bill under LC	Usance
Direct Import Bill	TT (Telegraphic Transfer) / DD (Foreign Demand Draft)
Advance Remittance against Import	TT (Telegraphic Transfer) / DD (Foreign Demand Draft)

Part - B

List of Important Menu Commands of CBS

Following is the list of various important menu commands across multiple CBS based on area of operations in the bank.

i. Accounts, Customer Master and Inquiry

CBS Package	Menu Code / Access path	Menu Name	Menu Type (Inquiry / Report)
Finacle 7	CUMM / CUMI	Customer Master Maintenance / Inquiry	Inquiry
Finacle 7	ACM / ACI	Account Master Maintenance / Inquiry	Inquiry
Finacle 7	ACLI	Account Ledger Inquiry	Inquiry
Finacle 7	ACCBAL	Component of Account Balance Inquiry	Inquiry
Finacle 7	ACS	Account Criterion Search	Inquiry (Search / Criterion based)
Finacle 7	CUS	Customer Selection / Inquiry	Inquiry (Search / Criterion based)
Finacle 7	ACINT	Interest Run for Accounts	Inquiry / Report
Finacle 7	INTTM	Interest Table Master Maintenance	Inquiry
Finacle 7	AFI	Audit File Inquiry	Inquiry
Finacle 10	CRM Module	Customer Master maintenance	Inquiry & Modifications
Finacle 10	HACLI, HACLINQ	Account Ledger Inquiry	Inquiry
Finacle 10	HACM, HACMTD	Account Master, Account Master Term Deposits	Inquiry
Finacle 10	HINTTM	Interest Table Master Maintenance	Inquiry
Finacle 10	HAFI	Audit File Inquiry	Inquiry
BaNCS	Customer Management -> Enquiries -> Search by CIF Number	To verify all accounts of one Customer	Inquiry
BaNCS	Customer Management -> Enquiries -> Search by ID Number	Search using available information (ID Number)	Inquiry
BaNCS	Customer Management -> Enquiries -> Search by Name	Search using available information (Name)	Inquiry
BaNCS	Customer Management -> Relationship / Ownership -> Associated Accounts	Inquiry on Linked Accounts, Owned Accounts etc.	Inquiry
FlexCube	CH021	Account Master Maintenance	Inquiry
FlexCube	CH701	Customer account balances-Other than loans-For standard accounts but including CC limit accounts	Inquiry
FlexCube	CH703	RD account balances- Customer wise	Inquiry
FlexCube	2000	CTI Customer Search	Inquiry

CBS Package	Menu Code / Access path	Menu Name	Menu Type (Inquiry / Report)
FlexCube	7004	Customer Name and Address Inquiry	Inquiry
FlexCube	7100	All Balance Inquiry	Inquiry
FlexCube	7105	Display Customer Image	Inquiry
FlexCube	BA095	Account Level Attributes Inquiry	Inquiry
FlexCube	7002	Balance Inquiry	Inquiry
FlexCube	CH031	Statement Inquiry	Inquiry
FlexCube	BAM24	Account Status Audit Trail Inquiry	Inquiry
FlexCube	1337	Term Deposit Interest Payout Inquiry	Inquiry
FlexCube	7020	TERM DEPOSIT Balance Inquiry	Inquiry
FlexCube	TD023	TERM DEPOSIT Rates History Inquiry	Inquiry
FlexCube	TD031	TERM DEPOSIT Audit Trail Inquiry	Inquiry
FlexCube	TD037	TERM DEPOSIT Account Ledger Inquiry	Inquiry
FlexCube	TD050	TERM DEPOSIT Interest Inquiry	Inquiry
FlexCube	TD11	TDS Inquiry	Inquiry

ii. Transactions

CBS Package	Menu Code / Access path	Menu Name	Menu Type (Inquiry / Report)
Finacle 7	TM / TI	Transaction Maintenance / Inquiry	Inquiry
Finacle 7	FTI	Financial Transaction Inquiry	Inquiry (Search / Criterion based)
Finacle 7	FTR	Financial Transaction Inquiry Report	Report
Finacle 10	HTI	Transaction Maintenance / Inquiry	Inquiry
Finacle 10	HFTI	Financial Transaction Inquiry	Inquiry (Search / Criterion based)
BaNCS	Deposit / CC / OD Accounts & Services -> Enquiries -> Transaction	Transaction Enquiry (Additional options available: Transaction Types: 99 - All Financial, 98 - Cash Transaction, 25 - Repayment Details, 33 - Message Details)	Inquiry
BaNCS	-> Branch Accounting (BGL) -> Enquire -> Transaction	BGL Transaction Enquiry	Inquiry
FlexCube	TD044	TD Transactions Inquiry	Inquiry
FlexCube	LN058	Loan Interest Adjustment Transaction	Inquiry
FlexCube	PM025	Payment Transaction Inquiry	Inquiry
FlexCube	GLM04	GL Transactions and Movements Inquiry	Inquiry
FlexCube	AT002	Audit Trail Financial Transactions Inquiry	Inquiry
FlexCube	BA777	Audit Trail Inquiry for Non-Financial	Inquiry

CBS Package	Menu Code / Access path	Menu Name	Menu Type (Inquiry / Report)
		Txns	

iii. Clearing Transactions

CBS Package	Menu Code / Access path	Menu Name	Menu Type (Inquiry / Report)
Finacle 7	MCLZOH	Maintain Clearing Zone	Inquiry
Finacle 7	OCTM	Outward Clearing Transaction Maintenance	Inquiry
Finacle 7	ICTM	Inward Clearing Transaction Maintenance	Inquiry
Finacle 10	HOCTM	Maintain Clearing Zone	Inquiry
Finacle 10	HICTM	Outward Clearing Transaction Maintenance	Inquiry
Finacle 10	HMCLZOH	Inward Clearing Transaction Maintenance	Inquiry
BaNCS	Collection and Cheque Purchase -> Enquiries -> Enquiries	Inquiry for Cheque Purchase / on Collection	Inquiry
FlexCube	ST023	Outward Clearing	Inquiry
FlexCube	ST033	Inward Clearing	Inquiry
FlexCube	BA990	Clearing Inquiry	Inquiry
FlexCube	ST002	Value Date Clearing Inquiry	Inquiry

iv. Office Accounts Maintenance

CBS Package	Menu Code / Access path	Menu Name	Menu Type (Inquiry / Report)
Finacle 7	ACLPOA	Account Ledger Print Office Account	Report
Finacle 7	IOT	Inquire on Transaction	Inquiry & Report
Finacle 7	MSGOIRP	Outstanding Items Report	Report
Finacle 10	HIOT	Inquire on Transaction	Inquiry & Report
Finacle 10	HACLPOA	Account Ledger Print Office Account	Report
BaNCS	-> Branch Accounting (BGL) -> Enquire -> Account	Enquiry on BGL Account	Inquiry
BaNCS	-> Branch Accounting (BGL) -> Enquire -> Account Number Search	Search an Account Number by BGL Name	Inquiry
BaNCS	-> Branch Accounting (BGL) -> Enquire -> Transaction	BGL Transaction Enquiry	Inquiry
Flexcube	GLM01	GL Voucher Entry	Inquiry
Flexcube	GLM02	Chart of Accounts	Inquiry
Flexcube	GLM04	GL Transactions and Movement Inquiry	Inquiry
Flexcube	1005	Miscellaneous GL Transfer (Dr/Cr)	Inquiry

v. Loans & Advances

CBS Package	Menu Code / Access path	Menu Name	Menu Type (Inquiry / Report)
Finacle 7	SRM	Security Register Maintenance	Inquiry
Finacle 7	HCLM / CLL	Collateral Maintenance	Inquiry
Finacle 7	ACHLM	Account History Limit Maintenance	Inquiry
Finacle 7	ALM	Account Lien Maintenance	Inquiry
Finacle 7	ACTODM	Account TOD Maintenance	Inquiry
Finacle 7	TODRP	TOD Register Printing	Inquiry
Finacle 7	PSP	Pass Sheet Print	Report
Finacle 7	ACLPCA	Account Ledger Printing	Report
Finacle 7	LAGI	Loan General Inquiry	Inquiry (Criterion based search)
Finacle 7	LAOPI	Loan Overdue Position Inquiry	Inquiry (Criterion based search)
Finacle 7	LTL	Limit Tree Lookup	Inquiry
Finacle 7	LNDI	Limit Node Inquiry	Inquiry
Finacle 7	AINTRPT	Interest Report for Accounts	Report
Finacle 10	HSCLM	Security Register Maintenance	Inquiry
Finacle 10	HALM	Account Lien Maintenance	Inquiry
Finacle 10	HACTODM	Account TOD Maintenance	Inquiry
Finacle 10	HPSP	Pass Sheet Print	Report
Finacle 10	HACLHM	Account Limit History Maintenance	Inquiry
Finacle 10	HAINTRPT	Interest Report for Accounts	Report
Finacle 10	HINTPRF	Interest Proof Report	Report
BaNCS	Deposit / CC / OD Accounts & Services -> Enquiries -> Deposit / CC / OD Account	To verify the Account Master Details	Inquiry
BaNCS	Deposit / CC / OD Accounts & Services -> Enquiries -> Statement Print	Printing Statement of Account for a Deposit or CC / OD	Report
BaNCS	Deposit / CC / OD Accounts & Services -> Enquiries -> Short	Basic details on Enquiry on Screen on Deposit Accounts	Inquiry
BaNCS	Deposit / CC / OD Accounts & Services -> Enquiries -> Long	Additional Details on Enquiry Screen for Deposit Accounts	Inquiry
BaNCS	Deposit / CC / OD Accounts & Services -> Interest Rate History	Details of changes in Interest Rate for an account	Inquiry
BaNCS	-> DL/TL Accounts & Services -> Loan Tracking -> Operations	Loan account operations	Inquiry
BaNCS	-> DL/TL Accounts & Services -> Loan Processing -> Generate Repayment Schedules -	To print Repayment schedule for a DL / TL Account	Report

CBS Package	Menu Code / Access path	Menu Name	Menu Type (Inquiry / Report)
	>Action - "E"		
BaNCS	-> DL/TL Accounts & Services -> Enquiries -> Short -> Option "Balance Breakup Enquiry"	To view amount of Arrears & Breakup of Principal, Interest Realized, Charges & Arrear of Interest	Inquiry
BaNCS	-> DL/TL Accounts & Services -> Security (Primary / Collateral) -> Customer -> Enquiry -> Enquire Security Summary	Enquire on linked collateral	Inquiry
FlexCube	CH066	Limit Collateral Inquiry	Inquiry
FlexCube	CHM06	OD Collateral Maintenance	Inquiry
FlexCube	CHM07	OD Limit Master Maintenance	Inquiry
FlexCube	ST070	Cheque Purchase	Inquiry
FlexCube	CH033	Average Quarterly / Monthly Balance Inquiry	Inquiry
FlexCube	TDM24	Lien Master	Inquiry
FlexCube	1413	Loan Disbursement Inquiry	Inquiry
FlexCube	LN522	Account Schedule Inquiry	Inquiry
FlexCube	LN10	Account Transactions Inquiry	Inquiry
FlexCube	BA433	Collateral To Accounts Inquiry	Inquiry
FlexCube	BA434	Account To Collateral Inquiry	Inquiry

vi. DD / PO, Cheque Book maintenance, Stop Payments and Security Stationery maintenance

CBS Package	Menu Code / Access path	Menu Name	Menu Type (Inquiry / Report)
Finacle 7	DDSM	DD Status Maintenance	Inquiry
Finacle 7	DDIP	Inquiry on Specific DD Paid	Inquiry
Finacle 7	ISRA	Inventory Status Report	Report
Finacle 7	IMI	Inventory Movement Inquiry	Inquiry
Finacle 7	ICHB	Issue Cheque Book	Inquiry
Finacle 7	CHBM	Cheque Book Maintenance	Inquiry
Finacle 7	SPP	Stop Payment of Cheque	Inquiry
Finacle 7	SPRG	Stop Payment Register	Report
Finacle 10	HDDSM	DD Status Maintenance	Inquiry
Finacle 10	HDDIP	Inquiry on Specific DD Paid	Inquiry
Finacle 10	HISRA	Inventory Status Report	Report
Finacle 10	HIMI	Inventory Movement Inquiry	Inquiry
Finacle 10	HICHB	Issue Cheque Book	Inquiry
Finacle 10	HCHBM	Cheque Book Maintenance	Inquiry
Finacle 10	HSPP	Stop Payment of Cheque	Inquiry
Finacle 10	HSPRG	Stop Payment Register	Inquiry
BaNCS	-> Valuable Paper Inventory System [VPIS] -> Enquiry of VPIS ->	To check inventory status	Inquiry

CBS Package	Menu Code / Access path	Menu Name	Menu Type (Inquiry / Report)
	General Enquiry		
BaNCS	-> VPIS -> Lost / Damaged / Cancelled Inventories	Location for Lost / Damaged / Cancelled Inventories	Inquiry
BaNCS	-> VPIS -> Enquiry of VPIS ->Teller Level Inquiry	Details of Inventory available at Teller level	Inquiry
FlexCube	CH078	Cheque Status Maintenance	Inquiry
FlexCube	CHM35	Stop Cheque Instructions	Inquiry
FlexCube	CHM37	Cheque Book Issue Maintenance	Inquiry
FlexCube	IV011	Stock Inquiry	Inquiry
FlexCube	IV004	Inventory Lost report Register maintenance	Inquiry
FlexCube	MCA80	Inquiry of sold/issued inventory	Inquiry

vii. Compliances

CBS Package	Menu Code / Access path	Menu Name	Menu Type (Inquiry / Report)
Finacle 7	TDSIP	TDS Inquiry / Print	Inquiry and Report
Finacle 7	AFSM	Account Freeze Maintenance	Inquiry
Finacle 10	HTDSIP	TDS Inquiry / Print	Inquiry and Report
Finacle 10	HAFSM	Account Freeze Maintenance	Inquiry
FlexCube	TDS06	Tax Parameters Maintenance	Inquiry
FlexCube	TDS04	Tax waiver criteria Maintenance	Inquiry
FlexCube	TDS05	Customer special Tax code maintenance	Inquiry
FlexCube	TDS11	Tax Inquiry	Inquiry

viii. Trade Finance and Foreign Exchange Transactions

CBS Package	Menu Code / Access path	Menu Name	Menu Type (Inquiry / Report)
Finacle 7	INBOEM	Bill of Entry Maintenance	Inquiry
Finacle 7	BI	Bills Inquiry (Inland)	Inquiry (Criterion based search)
Finacle 7	BP	Bills Inquiry (Inland) - Printing	Report
Finacle 7	BM	Bill Maintenance (Inland)	Inquiry
Finacle 7	FBI	Foreign Bill Inquiry	Inquiry (Criterion based search)
Finacle 7	FBM	Foreign Bill Maintenance	Inquiry
Finacle 7	FBP	Foreign Bill Inquiry - Printing	Report
Finacle 7	BRBPR	Balancing Report for Bills Purchased (Inland)	Report
Finacle 7	BRCR	Balancing Report for Bills on Collection (Inland)	Report
Finacle 7	FBBR	Balancing Report for Foreign Bills	Report
Finacle 7	DCQRY	Documentary Credit Query	Inquiry (Criterion based search)

CBS Package	Menu Code / Access path	Menu Name	Menu Type (Inquiry / Report)
Finacle 7	GI	Guarantee Inquiry	Inquiry
Finacle 7	IRM	Inward Remittance Maintenance	Inquiry
Finacle 7	ORM	Outward Remittance Maintenance	Inquiry
Finacle 10	HINBOEM	Bill of Entry Maintenance	Inquiry
Finacle 10	MIIB	Maintain Import & Inward Bills	Inquiry
Finacle 10	MEOB	Maintain Export & Outward Bills	Inquiry
Finacle 10	IBL	Bill Inquiry	Inquiry (Criterion based search)
Finacle 10	HBRBPR	Balancing Report for Bills Purchased (Inland)	Inquiry
Finacle 10	HBRCR	Balancing Report for Bills on Collection (Inland)	Inquiry
Finacle 10	HFBBR	Balancing Report for Foreign Bills	Inquiry
Finacle 10	HGI	Guarantee Inquiry	Inquiry
Finacle 10	HIRM	Inward Remittance Maintenance	Inquiry
Finacle 10	HORM	Outward Remittance Maintenance	Inquiry
FlexCube	SY001	Guarantee Inquiry	Inquiry
FlexCube	BIM04	Bill Parameters Maintenance	Inquiry
FlexCube	BIM05	Bills Processing Maintenance	Inquiry
FlexCube	BI001	Bills Data Entry	Inquiry

Note:

The discussion of Menu codes / commands in this chapter is only for guidance of members. The purpose of inclusion of the same here is to understand functioning of banking software. Moreover, with the continuous changes and customization requests by banks, all the menu codes may not be available / accessible in all the banks.

The Finacle menu codes discussed in this chapter is for version 7 (except expressly mentioned).

Part - C

Illustrative Checklist on Audit activity through CBS

1. Parameters affecting automatic identification of NPAs and re-designing of audit processes

In terms of directives issued by Ministry of Finance and Reserve Bank of India, it is mandatory for banks to identify the bad loans through CBS / Systems instead of conventional methods. CBS like other software work on GIGO principle. Master Data play an important role in correct identification of Bad Loans.

Following are few scenarios wherein incorrect updation in Master Data, manipulation through transactions etc. may impact correct identification of bad loans through CBS.

Parameters	Auditors' Primary Checks	Suggested System Support
Discrepancies in setting up the EMI / Installments	<ul style="list-style-type: none"> ➤ Whether EMI / installment is correctly setup. ➤ Whether EMI / installment amount is matching with the Sanctioned Terms. ➤ Whether periodicity of Installment is correctly classified as per Sanctioned Terms? 	<p>Finacle:</p> <ul style="list-style-type: none"> – ACI -> Option "E" Repayment details <p>BaNCs:</p> <ul style="list-style-type: none"> – DL/TL Accounts & Services -> Enquiries -> Account – Deposit / CC / OD Accounts & Services -> Enquiries -> Deposit / CC / OD Account <p>(Short & Long Inquiry options are available under both menu.)</p>
Multiple sets of EMI / Installments	<ul style="list-style-type: none"> ➤ For case of Multiple sets of EMI e.g. For 1-5 years EMI of Rs. 7,000 and after 5 years Rs. 7,500 ➤ Whether sets of EMI are properly entered? ➤ Is there any substantial difference between 1st set of EMI and 2nd or other sets (e.g. 1st set Rs. 5,000 and 2ndRs. 1,00,000) which cast doubt on debt serviceability? 	<p>Finacle:</p> <ul style="list-style-type: none"> – ACI -> Option "E" Repayment details <p>BaNCs:</p> <ul style="list-style-type: none"> – DL/TL Accounts & Services -> Enquiries -> Account – Deposit / CC / OD Accounts & Services -> Enquiries -> Deposit / CC / OD Account <p>(Short & Long Inquiry options are available under both menu.)</p>
System determined Asset Classification vis a vis User defined Asset Classification	<ul style="list-style-type: none"> ➤ CBS contain two sets of parameters. At first instance CBS identify the account based on set parameters under Asset Classification types. ➤ In few CBS it has been observed that user is generally given the option to differ and select / amend the classification. In such cases detailed scrutiny of NPA system is required to be 	<p>Finacle:</p> <ul style="list-style-type: none"> ➤ ACM / ACI Option - 'Y' Asset Classification Inquiry ➤ A report containing accounts wherein there is difference between Asset Classification by System and by user should be requested for. Accounts listed in the said report should be thoroughly verified.

Parameters	Auditors' Primary Checks	Suggested System Support
	<p>carried out.</p> <ul style="list-style-type: none"> ➤ Due to errors in certain Master Data, there can be erroneous identification of account as NPA. However, such accounts require detailed scrutiny. 	
Manipulation in SL / DP	<ul style="list-style-type: none"> ➤ Changes in SL / DP should be cross checked with Sanctioned Letter. ➤ Whether any change in Limit is supported by necessary documentation? 	<p>Finacle:</p> <ul style="list-style-type: none"> ➤ ACLHM - Account Limit History Maintenance <p>BaNCS:</p> <ul style="list-style-type: none"> ➤ Tailormade report on Changes in Account Limits
Incorrect moratorium period	<ul style="list-style-type: none"> ➤ Based on moratorium period CBS will identify the Loan Installment and will track repayment. ➤ In case the moratorium period / installment start date is erroneously updated system will not show correct result. 	<p>Finacle:</p> <ul style="list-style-type: none"> ➤ ACI - Option "E" - Repayment Details <p>BaNCS:</p> <ul style="list-style-type: none"> ➤ Account Master details (Long Inquiry)
Re-phasement without reporting it as reschedule	<ul style="list-style-type: none"> ➤ Loan Account Installments are rephased / recalibrated without reporting the same as Re-schedule. ➤ Verify whether any change in Repayment instruction is made through System. Compare the said accounts with list of Restructured Accounts. 	<p>Finacle:</p> <ul style="list-style-type: none"> ➤ ACI - Option "E" - Repayment Details <p>BaNCS:</p> <ul style="list-style-type: none"> ➤ Account Master details (Long Inquiry) ➤ Report containing details of all the cases wherein EMI / Installment is changed should be sought
Installment Start Date is Future Date	<ul style="list-style-type: none"> ➤ Check whether Installment Start Date entered as per sanctioned term? ➤ In case of future date system will not identify installment and any repayment received will be shown as "Overflow". 	<p>Finacle:</p> <ul style="list-style-type: none"> ➤ ACI - Option "E" - Repayment Details <p>BaNCS:</p> <ul style="list-style-type: none"> ➤ Account Master details (Long Inquiry)
Interest Demand date (Future Date)	<ul style="list-style-type: none"> ➤ Check whether Interest Start Date entered is as per Sanctioned Term? ➤ In case of future date as Interest Demand Date system will not accrue interest and any repayment received will be shown as "Overflow". 	<p>Finacle:</p> <ul style="list-style-type: none"> ➤ ACI - Option "E" - Repayment Details <p>BaNCS:</p> <ul style="list-style-type: none"> ➤ Account Master details (Long Inquiry)
Fictitious credit through Office Account / Inter-	<ul style="list-style-type: none"> ➤ Are there any quarter / year end credits cited in the account? 	<p>Finacle:</p> <ul style="list-style-type: none"> ➤ ACLI - (Use CTRL + E to Explore the Tran)

Parameters	Auditors' Primary Checks	Suggested System Support
branch Account	<ul style="list-style-type: none"> ➤ Check the source of Credit Entries. ➤ Review transactions in Office Accounts / Inter Branch Accounts. 	<ul style="list-style-type: none"> ➤ Review of Office Account Ledgers <p>BaNCS:</p> <ul style="list-style-type: none"> ➤ Deposit / CC / OD Accounts & Services -> Enquiries -> Transaction ➤ DL/TL Accounts & Services -> Enquiries -> Transaction
Round tripping from internal accounts	<ul style="list-style-type: none"> ➤ Close scrutiny of transaction and review of chain / series of transaction for accounts with deficiency is required. ➤ Such transactions will inflate the Credit Turnover in the account. 	<p>Finacle:</p> <ul style="list-style-type: none"> ➤ ACLI - (Use CTRL + E to Explore the Tran) ➤ Using only Account Turnover Information generated through "ATOR" / "CUTI" / "ACTI" menu may lead to incorrect inference, since the credits are not solitary credits in account. <p>BaNCS:</p> <ul style="list-style-type: none"> ➤ Deposit / CC / OD Accounts & Services -> Enquiries -> Transaction ➤ DL/TL Accounts & Services -> Enquiries -> Transaction
Temporary Overdrafts	<ul style="list-style-type: none"> ➤ Check whether the TOD is sanctioned in order to bring the overdrawn limit to base level additional facility through TOD is sanctioned. 	<p>Finacle:</p> <ul style="list-style-type: none"> ➤ ACLI - Option "O" ➤ TODRP - TOD Register Printing <p>BaNCS: TOD Report</p>
Devolved bills parked in Office Accounts and not in limit account	<ul style="list-style-type: none"> ➤ Devolved Bills under LCs are required to be debited to the Limit Accounts only. Assessment of Asset Classification will be based on composite overdrawn portion Limit + LC Devolved amount (if any on devolvement) ➤ Check whether the amount of devolvement of LC backed bills are parked in Office Accounts or any separate account? 	<p>Finacle:</p> <ul style="list-style-type: none"> ➤ BI & FBI - with Bill Status as "K" using status date filter <p>BaNCS: Report on Devolved bills under Import LC</p>
Multiple CUST ID to prevent the other account from becoming NPA	<ul style="list-style-type: none"> ➤ Check whether multiple CUST IDs have been opened for the borrower with different accounts? ➤ NPA Report and search all the case by few characters of Name. 	<p>Finacle:</p> <ul style="list-style-type: none"> ➤ ACS - Account Selection (Search based on Name) ➤ LAGI - Loan Account General Inquiry (Inquiry based on other parameters) <p>BaNCS:</p> <ul style="list-style-type: none"> ➤ Customer Management -> Enquiries -> Search by Name

2. Parameters affecting collection of Interest / Revenue

Primary revenue for banks is Interest on Loans and Advances. Charging of Interest is completely automated barring few products. However, the processing is based on certain important parameters. System parameters / fields which affect the Interest Computation should be thoroughly verified.

Important Interest Parameters

- Interest Table
 - Debit Interest Rate & Credit Interest Rate
 - Interest Version
 - Currency
 - Limit Level Interest
 - Penal Interest
- Interest Rate (Static / Absolute & Based on Ref. Rate)
- Interest Preferential Customer Level: Interest Rate preference will be applied to all the accounts of the customer based on type of Interest.
 - Debit Interest Preferential
 - Positive preference value
 - Negative preference value
 - Credit Interest Preferential
 - Positive preference value
 - Negative preference value
- Interest Preferential Account Level: Interest Rate preference will be applied to the specific account wherein the preference is updated.
 - Debit Interest Preferential
 - Positive preference value
 - Negative preference value
 - Credit Interest Preferential
 - Positive preference value
 - Negative preference value
- System Support / Important Menu Codes:
 - Finacle: INTCL, AINTRPT, INTPRF, INTTM
 - TCS Bancs: i) OD/CC Accounts -> Interest Rate History ii) DL / TL -> Interest Rate History

Following are few events / scenarios wherein there is a possibility of non application / incorrect application of Interest.

Sr. No.	Event / Scenario
1	Interest pegging in Advance Accounts set as "Y". (If "Y" is selected, system will charge interest at the rate prevailing at the time of Account Opening. For the cases of Fixed Rate Loans Pegging Flag will be "Y")
2	Future Date is updated in Interest Demand Date
3	Interest on Principal / Payment of Interest Flag is set as "N"
4	Effective Rate of Interest is updated as "0"
5	Account Open and Installment Start Dates are identical.
6	Account Open and Interest Demand Dates are identical.
7	Interest Table Code "Zero" is selected
8	Interest Demand Date is Past Date
9	Interest Demand Frequency is Blank.

3. Audit of Foreign Exchange Transactions with the use of CBS

The liberalization of economy is paving way for opening of new areas for Inbound and outbound investment. Moreover, with the increase in the global trade the foreign exchange and cross border transactions are increasing at a rapid speed. However, it also poses challenge of preventing misuse of regulations and money laundering activities.

Following are few activities that the auditor must carry out for audit of Foreign Exchange Transactions.

Audit Activity	Important Menu Codes of Finacle
Review of Letter of Credits issued, Expired, Search on Outstanding LCs	For Inquiry - DCQRY For Report - DCREG, DCRPTS, DCSTMT
Review of Bank Guarantee issued, invoked, closed, outstanding, Search on expired BGs	For Inquiry - GI For Report - GILR, GPI
Audit of Inland Bills (under collection, under LC, discounted)	For search: BI Search result printing: BP For specific bill: BM
Audit of outstanding Inland Bills	Report - BRRCR (Collection Bills), BRBPR (Purchased Bills)
Audit of Foreign Bills (under collection, under LC, discounted)	For search: FBI Search result printing: FBP For specific bill: FBM
Audit of outstanding Foreign Bills	Report - FBBR
Audit of Inward and Outward Remittances (Other than Import and Export Transactions)	For Inward Remittance: IRM For Outward Remittance: ORM
Tracking of Packing Credit granted and tracking of order in case of Running Packing Credit	Account wise Packing Credit: ACLI Running Packing Credit: RPCTM

4. Audit of Office Account Transactions through CBS

Office accounts are opened for the purpose of parking entries till the time the final effect is not determined. However, at various occasions it has been observed that the entries remain in the said parking accounts for a long period. Moreover, in case of weak monitoring of the said accounts, the Office Accounts are susceptible to fraud and misappropriation.

There are various types of office accounts.

1. Based on Functionality
 - a. Pointing Type / Self Reconciling Accounts
 - b. Non Pointing Type Accounts
2. Based on Type of Entry
 - a. Sundry Accounts, Suspense Accounts
 - b. EOD/BOD Check Accounts
 - c. Inter branch Account
 - d. Mirror Accounts
 - e. Pool Accounts

Following are few audit actionables for auditor carrying out audit of Office Account Transactions.

Events	Audit actionable	Suggested system support
Cash Payment from Office Accounts	Authorization of Transaction as per Delegated Authority	Finacle: <ul style="list-style-type: none"> • ACLI - For Transaction • FTI - For Search BaNCS:

Events	Audit actionable	Suggested system support
		<ul style="list-style-type: none"> • BGL -> Enquire -> Transaction
TOD through Office Accounts	<p>Through ineligible credit originating from a office account, customer can be accommodated. It also circumvent the number of TODs granted to Customer. Moreover, interest will not be applied in the said case.</p>	<p><u>Finacle:</u></p> <ul style="list-style-type: none"> • ACLI - For Transaction in Office Account <p><u>BaNCS:</u></p> <ul style="list-style-type: none"> • BGL -> Enquire -> Transaction
Parking of Cash Difference in Office Accounts, Clearing / Remittance differences through Office Accounts	<p>Difference in Reconciliation, Cash Shortage debited to Office Account and not reversed. Review ledger account in detailed.</p>	<p><u>Finacle:</u></p> <ul style="list-style-type: none"> • ACLI - For Transaction in Office Account • IOT - For inquiry on outstanding transaction • MSGOIRP - For Printing of outstanding office account transaction report <p><u>BaNCS:</u></p> <ul style="list-style-type: none"> • BGL -> Enquire -> Transaction • "Outstanding BGL Transaction" Report
Rotation of entries in Office Accounts	<p>To prevent entry being reported as long outstanding entry, a new transaction with debit and credit leg in the same account is posted. Thus, the system considers the new transaction date for reporting as outstanding entries. 5. Manual updation in CBS and its verification aspects

Under any CBS the transactions are processed as per predefined process. Majority of the processes in CBS are automated and based on masters. A manual intervention in automated process leads to error in transaction processing.

Following are few manual changes / modification in system which affects the transaction processing. The auditor must review the manual updation in CBS.

Manual Entry	Probable impact
Advances	
Interest Rate change	Revenue Leakage, Excess collection of Interest
Change in EMI	Revenue Leakage, NPA Identification
Processing of transactions against	Recovery of amount from customer in case of

Manual Entry	Probable impact
uncleared outward clearing effect	cheque return
Backdated Renewal Date updation (Updating Date of Renewal on running date with past date)	NPA Identification
Change in Limit - From Non Fund Base to Fund Base	NPA Identification
<u>Account & Customer Master</u>	
Tax exemption updation	Non compliance with TDS provisions
Dormant to Active	Susceptible to fraud
Interest Table Code as "0"	Revenue Leakage
Interest Collection Flag "N"	Revenue Leakage
Reclassification of Agriculture Advance as per revised RBI norms dt. April 23, 2015	Sectorial Classification
<u>Foreign Exchange Transactions</u>	
Erroneous Foreign Exchange Rate	Revenue Leakage, Accommodation to customer
Full BOE received flag marked as "Y" wherein BOE for entire transaction is not received	Reporting to RBI under BEF Return
FIRC Issuance (without updating flag printed "Y")	Duplicate issuance of FIRC without "Duplicate FIRC" inscription.
Merchant Trade Transaction (Manual mapping)	Reporting to RBI
<u>Transaction Processing & Housekeeping</u>	
Changes / Modification in Auto Calculated charge amount at the time of posting of transaction	Revenue Leakage
Ineligible Credits to NRE and FCRA Accounts	Non compliance of FEMA Guidelines
ATM Replenishment entries	Susceptible to Fraud
Payment for FD Closure proceeds in Cash through Office Accounts in excess of Rs. 20,000	Non compliance with Income Tax Guidelines
Revalidation of Old DDs	Susceptible to Fraud
Value Dating (Credit Transactions in CC / OD Account with Value Date without Value Dating at Debit Leg)	Revenue Leakage
Debit to Income Account (though Transaction Maintenance Menu)	Revenue Leakage
Manual Credit to Income Account (though Transaction Maintenance Menu)	Revenue Leakage (Computation of Income credited to be verified)
RTGS / NEFT in cash through office accounts > 49,999	Non compliance with AML guidelines
Delay in posting of clearing cheque return	Accommodation to customer
Manual Transfer of Security Stationery from Inventory location to External Location	Susceptible to Fraud (Avoid reporting of missing inventory)

6. Generation & verification of specific reports based on various criteria:

CBS allows generation of various reports through Frontend as well as through Backend. Few important reports for review by auditors are as follows.

(a) Exception Report

Reports for the month end and two days prior and after month end should be verified. Exceptions of following natures should be closely verified.

- (i) Balance exceeded Account Limit
- (ii) Manual debits to Income Account
- (iii) Value Dated Transactions
- (iv) Manual entry for SI Failure cases
- (v) Instrument passed against Clearing
- (vi) Backdated entries (normally restricted)

(b) Irregularity Report

Reports for the month end and two days prior and after month end should be verified. Report contains details of Accounts where Balance in Accounts are greater than the Limits Sanctioned. Check whether the same is due to,

- (i) Application of Interest
- (ii) Granting of Intra Day TOD
- (iii) Passing of Instruments against Clearing Effects

(c) Accounts where Interest Code is '0'

Interest will not be charged from Accounts where Interest Code is selected as '0'. Hence, a detailed checking is required. Possible reasons can be if it is a NPA account or an account with a moratorium.

(d) Interest Collection Flag as "No"

If Interest Collection Flag is selected as "No", Software will not consider the account for calculation and entry for Debit Interest.

(e) Debit Interest SI Failed Report

Failure of Standing Instruction for Debit Interest should be closely verified. If the SI is failed the Account will not be debited for Interest. SI Failure can be for any reason like

- (i) Non availability of Balance in Account (In case of TOD in Operative Account)
- (ii) Non availability of Limit in Account
- (iii) Technical Snag in execution

Whether Branch has manually passed the entry for all such cases should be verified.

(f) Loan Installment SI Failed Report

Same as above

(g) Report containing all Advance Accounts with Limits

Generally, CBS Softwares generate a Report wherein details of all Advance Accounts are listed. Excel can be used to verify cases of DP > SL, Margin Requirement, etc.

(h) TOD Report

Documents and sanction orders should be verified for all the cases of Manually granted TODs. In Finacle the report can be generated through Menu Code "TODRP".

(i) Account Turnover Report

To review the quantum of transactions in the borrower accounts turnover reports should be used. In Finacle, inquiry for Account Turnover can be carried out through “ACTI, CUTI” Menu codes and report can be generated through “ATOR” Menu.

(j) Loan Inquiry

In Finacle, criterion based search for Loan Accounts is available through Menu option “LAGI”. The said menu can be used to verify,

- New sanction, Accounts closed
- Loans under various schemes
- Loans based on Account Classifications
- Accounts search based on Limit (Credit & Stock Audit)

(k) Loan Overdue Inquiry

In Finacle, criterion based search for Overdue & Overflow Loan Accounts is available through Menu option “LAOPI”. In case of BaNCS the said details are available through offline daily report. The said menu can be used to verify,

- Principle & Interest Overdue & Overflow
- Overdue in “%” as well as Overdue in “No. of Days”

(l) Financial Transaction Inquiry

In Finacle, report based on different criteria for financial transactions can be generated through Menu Option “FTR”. The said menu can be used to verify,

- Loan disbursement in Cash (SubGL code & Tran Type)
- Value Dated Transactions verification (Only value dated flag)
- Transactions in Loan / OD-CC Accounts (SubGL, Tran Type, Part Tran Type)
- Credits to NRE Accounts in a period (SubGL, Part Tran Type)
- Credits to FCRA Accounts in a period (SubGL, Part Tran Type)
- Cash Deposit Transactions above Rs. 50,000 to verify compliance with Income Tax Guidelines on PAN (Tran Type, Tran Sub Type)
- Cash Transactions above Rs. 10 Lacs to verify compliance with AML Guidelines (Tran Type)
- Debits to ESCROW Accounts to verify compliance with ESCROW Agreement (SubGL, Part Tran Type)

7. Guide on Audit Activity through CBS for LFAR and Tax Audit Requirements

Following are few checkpoints for auditors for reporting under Long Form Audit Report alongwith suggested system support.

Part – D

Illustrative list of Special purpose / Exception Reports

An indicative list of reports (if generated through MIS System) will benefit SCAs and SBAs (if shared in advance) while undertaking the audit in fully computerised environment. Generally these reports are generated through Structured Query Language (SQL) by MIS Team at Bank. Each report require framing of detailed query as per the parameterization in bank. The role of Auditor is to guide MIS Team on Trigger / Exception Logic for generation of such reports. It requires detailed understanding of CBS, parameterization, master data etc.

Advances

Sr. No.	Report
1.	Advances Snapshot covering all important parameters
2.	Accounts with overdue in excess of 90 Days and are classified as Standard Assets
3.	List of LCs devolved during the period / year and current status of account
4.	List of BGs invoked during the period / year and current status of account
5.	Standalone Non Fund Based Limits granted to customers
6.	List of SMA / Watchlist / Probable NPA accounts as on the last date of Audit period
7.	Backdated updation of stock and book debt statements (Difference between Date of updation in CBS and Date of Stock Statement updated)
8.	List of Accounts wherein the facility is not renewed / reviewed
9.	List of Accounts slipped to NPA during the current period
10.	List of Accounts wherein there is an amendment in Date of NPA
11.	List of Accounts written off during the period / year
12.	List of Accounts upgraded (alongwith date of upgrade and the overdues on the date of upgrade)
13.	Quick Mortality (NPA within 1 year of Advance)
14.	List of NPA Accounts with Security Valuation not carried out within the prescribed period
15.	List of accounts wherein rephasing (Change in EMI, Tenor, Moratorium period) is carried out in CBS (excluding rephasing due to change in the reference rate)
16.	Loan / OD against FD with no linkage to FD (i.e. Security)
17.	Loan to Minor (Excluding Non individual accounts and excluding Education, Loan/OD against Deposit cases)
18.	Loans below the benchmark rate (as applicable in each bank)
19.	Loans above the maximum lending rate (as applicable in each bank)
20.	Loans where disbursement is made in Cash (Threshold limit may be prescribed)
21.	Credit transactions in CC / OD / Loan Accounts with Value Date (Back Date) without Value Date (Back Date) at Debit Leg.
22.	Advance accounts where effective interest rate is Zero.
23.	CC Accounts with primary security is "Nil"
24.	Multiple TODs / Adhoc Sanctions for a customer.
25.	Non delinking of Adhoc facility sanctioned on expiry

Profit & Loss

Sr. No.	Report
1.	Manual debit to Interest Income and Other Income Account
2.	Manual credits to Interest Income and Other Income Account
3.	Manual debit to Interest Expense Account
4.	Interest Pegging marked as "Y" for loans sanctioned at variable rate i.e. w.r.t. benchmark rates (Pegging may freeze the interest rate at the respective time.)

Foreign Exchange, Internal Controls and Systems

Sr. No.	Report
1.	Bills under LC devolved and not crystallized. / Bills under LC devolved wherein the crystallization account is office account / not of customer.
2.	Export Bills discounted / purchased and outstanding beyond due dates.
3.	Packing Credits Accounts outstanding beyond due dates / Running Packing Credit accounts with age of un-utilized orders is more than 365 days.
4.	Resident Customers having Non Resident Account (under same or multiple customer master)
5.	NRE Account Holder having Resident Savings Account (under same or multiple customer master)
6.	FDs / RDs with aggregate balance at customer master level in excess of Rs. 20,000 and closed one / all FDs / RDs in cash
7.	Cash Payments from Office Accounts in excess of Rs. 10,000
8.	Non Senior Citizen customers (based on DOB) with Senior Citizen Interest Table code
9.	Preferential Interest Rate applicable to Staff applied in non staff deposit (Refer the policy of bank w.r.t. extending facility to ex-staff and relatives of staff / ex-staff)
10.	List of Outstanding Office Accounts entries (Pointing type accounts)
11.	Accounts with invalid PAN (No. of digits, structure, constitution code mapping with 4 th Digit)
12.	List of Foreign Exchange transactions with Exchange Rates beyond the card rate / Maximum-Minimum Rate during the period

Capital Adequacy

Sr. No.	Report
1.	Accounts above threshold limit wherein External Credit Rating is not obtained / updated
2.	Bank Guarantees and LC Expired and not reversed.
3.	Accounts with mismatch in Constitution code and BASEL Mapping

The above list of reports is indicative only. There are various other reports that can be generated. However, as mentioned earlier, the generation of reports requires in-depth review of bank's systems, processes and gaps. The reports can be made more effective through continuation review and update mechanism.
