**“Your signature is more powerful than PM’s and Government also believes the Accounts signed by you.”**

-Shri Narendra Modi, Hon'ble Prime Minister, while addressing Chartered Accountants on 1<sup>st</sup> July 2017.

## Distinguished Leaders

**Shri Narendra Modi**, Hon'ble Prime Minister of India

Yours is a profession in the society that has the capacity to save this entire economy and keep it growing. A Chartered Accountant's role should be such that he knows that he is not working just to add and subtract these numbers between 0 to 9, but he should feel that he is playing an important role in building the economic infrastructure of this nation.

**Smt. Droupadi Murmu**, Hon'ble President of India

The Chartered Accountant Fraternity is the 'Pillar of Economic Governance'. You have been entrusted with an important responsibility of reflecting the real health of the economy. There are more than 3.5 lakh chartered accountants in the country. It is a matter of special happiness that the percentage of women in this profession is increasing day by day. I hope that in the year 2047, when the country will celebrate the centenary of independence and your institute will also be close to the centenary year, they will account for 50 per cent of the total practising chartered accountants.

**Shri Pranab Mukherjee**, Hon'ble Former President of India

(2012-2017) & honoured with Bharat Ratna Award in 2019: Let me compliment ICAI for their initiative to work with financial institutions in streamlining and fine tuning the financial reporting, auditing and accounting architecture of India. Such efforts create greater awareness among stakeholders about the challenges and opportunities that we have before us and help in identifying issues that need to be addressed for accelerating and sustaining the development tempo.

**Dr. APJ Abdul Kalam**, Hon'ble Former President of India

(2002-2007) & honoured with Bharat Ratna Award in 1997: Over the years ICAI and its members have made a name for themselves in the development of discipline as well standards of accounting. One of the national challenge is: How do we get maximum economic benefit for the given investment? I believe this is your core competence. The CAs have an integrated experience of Auditing, Financial Advice and Financial Management and providing leadership to certain industries and establishments.
